

## LIST OF CHEMICALS AND ADDITIVES USED IN THE FACTORY

| No. | Chemical Name       | Purpose of Use          | Remarks |
|-----|---------------------|-------------------------|---------|
| 01  | Choline chloride    | Feed mixing             |         |
| 02  | Premix              | Feed mixing             |         |
| 03  | DL – methionine     | Feed mixing             |         |
| 04  | Lysine              | Feed mixing             |         |
| 05  | AB20                | Feed mixing             |         |
| 06  | Azomite             | Feed mixing             |         |
| 07  | Vitamin C           | Feed mixing             |         |
| 08  | Salt                | Feed mixing             |         |
| 09  | DiCalcium Phosphate | Feed mixing             |         |
| 10  | Hicell              | Feed mixing             |         |
| 11  | Finase              | Feed mixing             |         |
| 12  | Quantum             | Feed mixing             |         |
| 13  | Adsorb Afla         | Feed mixing             |         |
| 14  | Extra Romin         | Feed mixing             |         |
| 15  | Viper 50 EC         | Feed mixing             |         |
| 16  | QuickPhos           | Raw material fumigation |         |
| 17  | Liquid soap         | Hand washing            |         |
| 18  | Chlorine            | Water disinfection      |         |
| 19  | Rice bran           | Feed production         |         |
| 20  | Cassava             | Feed production         |         |
| 21  | Soybean meal        | Feed production         |         |
| 22  | Fish meal           | Feed production         |         |
| 23  | Fuel                | Boiler operation        |         |
